HydroCOM Service

Minor and major service of all product variants

Ensures reliability and longer lifetime

HOERBIGER

Services in overview

Testing / Inspection / Quote

- Electric housing: Inspection and repair kit
- Valve housing: Inspection, cleaning and repair kit
- Seal housing: Inspection
- Inspection report

Minor repair in workshop

Maximum runtime 16,000 hrs

- Electric housing: Inspection and repair kit
- Valve housing: Inspection, cleaning and repair kit
- Seal housing: Inspection and replacement of sealing cartridges
- Hydraulic unit: Inspection, exchange filter and hydraulic oil
- Repair report

Major repair on-site

Maximum runtime 40,000 hrs

- Electric housing: Inspection and repair kit
- Valve housing: Exchange
- Seal housing: Inspection and replacement of sealing cartridges
- Hydraulic unit: Inspection, exchange filter and hydraulic oil, exchange pump and coupling
- Visual inspection of electric cabling and hydraulic piping
- Repair report

Speed up the service process

Planning is everything – combine maintenance with scheduled downtime

Time is money, yet often HydroCOM maintenance does not coincide with planned compressor downtime. That increases time, effort, and costs, and significantly reduces performance due to multiple shutdowns.

Now, though, these challenges belong to the past. HOERBIGER has speeded up the service process by relocating all HydroCOM service-related activities from the workshop directly to the compressor in the field – coordinated with your planned shutdowns, of course.

Your benefits of the on-site service at a glance

Carefree maintenance with an all-inclusive major service on site

- No need to send components to a HOERBIGER workshop for major service
- Testing of electric housing and service of sealing housing done in the field
- Field sales technician brings new, tested valve housings and sealing cartridges for replacement
- Hydraulic unit maintenance and exchange (filters, pump, coupling, oil)
- Visual inspection of electric cabling and hydraulic piping.
- Dry run/actuator test/simulation
- Purging of hydraulic system
- Adjusting hydraulic pressure
